EDUCATION

Ajay Kumar Garg Engineering College, Ghaziabad, Uttar Pradesh

2022 – 2026

Bachelor of Technology in Computer Science (CSE Department)

CGPA: 7.7/10

TECHNICAL SKILLS

Languages: HTML, JavaScript, C, C++, SQL, Python

Frameworks: React.js, Tailwind CSS, Angular, Node.js, Next.js, REST APIs

Tools: Git, GitHub, VS Code, Figma, Canva, MS Office

Concepts: DSA, Web Development, OOPs, APIs, ML (Learning), UI/UX

EXPERIENCE

Web Developer Intern

June 2025 – July 2025

Codec Technologies

Remote

- Created a fully responsive personal portfolio website showcasing 10+ skills, projects, and certifications. Implemented smooth UI transitions, reusable components, and while achieving 100% mobile responsiveness.
- Built a live chat web platform with Web Socket-based messaging, user authentication, message timestamps, and modular React components. Visualized a clean UI for seamless communication.

PROJECTS

Cloud Food Kart | *Angular, TypeScript, Bootstrap, CSS*

- Built a Cloud Food Kart web app using Angular, enabling users to browse menus, manage carts, and place orders via REST APIs and reducing page load time by 30%
- Structured and developed an Angular-based cloud food ordering platform with scalable components, API integration, and responsive UI, enhancing usability and maintainability.

Movie-Maniac Website | *React, Tailwind CSS, JavaScript, API*

- Designed a fully responsive, interactive movie discovery website using React for frontend development, consuming third-party REST APIs (such as The Movie Database API) to dynamically render 100+ movie records and display movie data including details, trailers, and ratings.
- Enhanced user engagement by designing and integrating features such as dark mode toggle, genre and rating-based filtering, and search functionality, improving usability and accessibility.

FinanceXpert Blog Website (Team Project) | *JavaScript, Node.js, MongoDB, CSS*

- Contributed in a 4-member team to design and build a full-stack finance blog application with Node.js and Express.js backend, and MongoDB as the database for persistent data storage.
- Collaborated on database schema design for efficient storage of user data, blog posts, comments, and session management, ensuring data integrity and scalability.

Real-Chat Now Application | *React.js, Node.js, Socket.io, Express*

- Developed a real-time chat application using React, Node.js, and Socket.io, enabling real-time messaging for 20+ concurrent users with reliable message delivery.
- Implemented WebSocket for instant messaging, enabling seamless user communication with live chat updates.

PARTICIPATIONS / CERTIFICATIONS

- Core Member - **ISTE-AKGEC**, Organized 5+ technical workshops, coding contests, and guest lectures for 200+ students, fostering peer engagement and innovation.
- Member - **College Discipline Committee**, Supported discipline and event operations across 5+ academic events, assisting faculty in maintaining decorum and smooth execution.
- Completed 4+ industry-recognized **technical certifications**, including: Deep Learning (**NVIDIA**).
- **GUVI HCL** - Introduction to Data Engineering and BigData [View Certificate]
- **Cisco Networking Academy** - Introduction to Modern AI [View Certificate]
- **IBM SkillBuild** - Web Development Fundamentals [View Certificate]
