EDUCATION

Ajay Kumar Garg Engineering College, Ghaziabad, Uttar Pradesh
Bachelor of Technology in Computer Science (CSE Department)

2022 – 2026
CGPA: 7.7/10

TECHNICAL SKILLS

Languages: HTML, JavaScript, C, C++, SQL, Python

Frameworks: React.js, Tailwind CSS, Angular, Node.js, Next.js, REST APIs

Tools: Git, GitHub, VS Code, Figma, Canva, MS Office

Concepts: DSA, Web Development, OOPs, APIs, ML (Learning), UI/UX

EXPERIENCE

Web Developer Intern

June 2025 – July 2025

Codec Technologies

Remote

- Created a fully responsive personal portfolio website showcasing skills, projects, and certifications. Implemented smooth UI transitions, reusable components, and mobile-first design principles. Deployed using GitHub.
- Built a real-time chat application with Web Socket-based messaging, user authentication, message timestamps, and modular React components. Designed a clean UI for seamless communication.

PROJECTS

Hospital Management System Analytics | *Python, MySQL, MS Excel*

- Analyze hospital management data to improve patient care, doctor utilization, billing efficiency, and operational performance using SQL.
- Designed a normalized relational database with patients, doctors, appointments, treatments, and billing tables.

Movie-Maniac Website | *React, Tailwind CSS, JavaScript, API*

- Designed a fully responsive, interactive movie discovery website using React for frontend development, consuming third-party REST APIs (such as The Movie Database API) to dynamically fetch and display movie data including details, trailers, and ratings.
- Enhanced user engagement by designing and integrating features such as dark mode toggle, genre and rating-based filtering, and search functionality, improving usability and accessibility.

FinanceXpert Blog Website (Team Project) | *JavaScript, Node.js, MongoDB, CSS*

- Contributed in a team to design and build a full-stack finance blog application with Node.js and Express.js backend, and MongoDB as the database for persistent data storage.
- Collaborated on database schema design for efficient storage of user data, blog posts, comments, and session management, ensuring data integrity and scalability.

Real-Chat Now Application | *React.js, Node.js, Socket.io, Express*

- Developed a real-chat now web application using React the frontend and Node.js with Socket.io for the backend.
- Implemented WebSocket for instant messaging, enabling seamless user communication with live chat updates.

PARTICIPATIONS / CERTIFICATIONS

- Core Member - **ISTE-AKSEC**, Organized technical workshops, coding contests, and guest lectures to foster a culture of learning and innovation among students.
- Member - **College Discipline Committee**, AKSEC Contributed to maintaining discipline and decorum during academic events, seminars, and campus activities.
- Holder of multiple certifications from **technical workshops**, including: Deep Learning (**NVIDIA**).
- **GUVI HCL** - Introduction to Data Engineering and BigData [View Certificate]
- **Cisco Networking Academy** - Introduction to Modern AI [View Certificate]
- **IBM SkillBuild** - Web Development Fundamentals [View Certificate]
